Oakland Police Officers are Disappointed in the Actions of a Few

OAKLAND . Following the announcement today of charges leveled at current and former Police Officers by the District Attorney's Office, Oakland Police Officers are disappointed in the actions of a few.

As Oakland Police Officers' Association President Barry Donelan explained "the actions of a few are disappointing but I want to remind the residents of Oakland that the overwhelming majority of Oakland Police Officers are out there working hard for our community.+

Oakland residents can be assured that Oakland Police Officers will continue to serve our citizens diligently and credibly throughout these turbulent times for our City.

"Our officers are just as disappointed as everyone else in the blemish these events have made on the reputations of Oakland Police Officers who come to work every day and serve with honor in our community," Donelan concluded.
